### **From Hot Topics to Critical Issues: Bankruptcy Research Made Easy**

**Thursday, November 12**

**12:00-12:20pm EST**

When you're facing a tough bankruptcy legal challenge, you may know how to begin your research right away. Then again, if it's a new or unfamiliar topic, you may not. Either way, the Bankruptcy Practice Center at *lexis.com*<sup>®</sup> has you covered.

Attend this 20-minute Webinar to see how the Bankruptcy Practice Center gives you all the content and tools you need to deliver optimal results for your commercial or consumer bankruptcy clients—from one intuitive interface.

- Jumpstart research on hot topics and emerging issues—such as the sale of assets within commercial bankruptcies and consumer mortgage cramdowns
- Get authoritative guidance from exclusive resources like *Collier on Bankruptcy*<sup>®</sup>
- Track the latest bankruptcy news and pending legislation
- Make sure your case research doesn't miss any critical content with new Related Content functionality
- Find prospective clients by setting up CourtLink<sup>®</sup> Alerts that automatically notify you of new filings that match criteria you control
- And more

### **Semantic Search from LexisNexis<sup>®</sup>: A Look Under the Hood**

**Tuesday, November 17**

**12:00-12:20pm EST**

Get a look under the hood of Semantic Search from LexisNexis—the revolutionary tool that enhances your English language or Boolean search expertise with a truly transparent and controllable semantic analysis.

Attend this 20-minute Webinar to see how LexisNexis and PureDiscovery teamed up to bring new and cutting-edge features to semantic technology:

- Transparency—you can see what the semantic analysis is doing
- Control—you can accept, delete and adjust the weighting of the terms and concepts the analysis returns
- Federated—the technology can federate semantic searches to any index
- Scalable—the technology has learned from over 10 million full-text documents and continues to grow and learn every day

### **2009 California E-Discovery Act: Understanding the Processes, Procedures and Requirements**

**Tuesday, November 17**

**3:00-3:20pm EST**

If you litigate in California state courts, you need to know about the new 2009 California Electronic Discovery Act, which is **already in effect**.

Attend this 20-minute Webinar and find out how to access the only comprehensive treatment of electronic discovery in California state court litigation via the new *Matthew Bender*<sup>®</sup> *Practice Guide: California E-Discovery and Evidence*—available in print and online exclusively at *lexis.com*<sup>®</sup>.

- Access comprehensive analysis of the new 2009 Act
- Gain a clear understanding of the technical and legal aspects of electronically stored information (ESI)
- Get detailed guidance on e-discovery process and procedure under the Act, using up-to-date checklists and e-discovery forms
- Obtain real-world insight on how e-discovery should be conducted in California courts under the new law

The webinar speaker will be Michael Kelleher, a partner at the San Francisco office of Folger, Levin, and Kahn, an e-discovery expert and editorial consultant for the new LexisNexis e-discovery practice guide.
